All Covered 
IT SERVICES FROM KONICA MINOLTA / LEGAL

Every second counts. When IT gets in the way of your law practice, call on All Covered.

When you're billing by the minute, every moment spent on the pursuit of your practice matters.

Filing online documents, tackling billing issues, worrying about cybersecurity – if you're spending more time managing these incidentals than the practice of law, then it won't be long before you'll be at an unrecoverable competitive disadvantage.

But you don't have to waste hours of your working day clashing with befuddled technical support staff who don't understand the legal industry and issues important to your firm. Just call on the **Lawyer's Help Desk**—an exclusive service of All Covered Legal Services.

“

Over the years, All Covered has been a great strategic partner for us. The All Covered team has in depth understanding of issues facing law firms. As a legal solutions integrator, All Covered understands that my time is valuable. I continue to be impressed by the speed of their response.

• **Industry Specific.** We have staffed the Lawyer’s Help Desk with IT engineers that have previously worked for law firms, and consequently understand what sense of urgency really means to a law firm. Ongoing discussions will give you peace of mind and assure you of our team’s knowledge of your IT infrastructure – and their ability to provide the proper solutions in a timely manner.

To facilitate the learning curve, we created an All Covered Guidebook for each and every Lawyer’s Help Desk client that captures key processes, applications, network topography, and special instructions to better manage your infrastructure.

• **Bottom-line friendly.** We have designed the Lawyer’s Help Desk to fit the budgetary constraints consistently pressuring law firms like yours. Our service is scalable, and you’ll never have to pay for support you do not utilize.

Nearly every firm has faced countless challenges regarding staffing a support desk with experienced personnel to accommodate for peaks and valleys. The Lawyer’s Help Desk was developed to assist with these issues and to address expertise, economics, availability and the risks of maintaining a world class support desk for all sizes and shapes of law firms and legal departments.
